## ABOUT US

Established in 1979, Pacific Hire is a traditional Equipment Hire company founded in Myrtleford by Roland Carllassare who grew sick and tired of mates asking to lend his tools. Company owners/Directors Raimond & Deanne were born and bred to be in the Hire industry and were surely the envy of their mates because they had all the diggers a kid could want to play with, and with age that still hasn't changed. "There isn't a piece of equipment here that we've not used. "As soon as we get something new in, we all have to take it home and give it a go. It sounds sad, but we just love it!"

With our roots strongly secured in the Melbourne and surrounding areas, Northern Regions of Victoria & Southern Regions of N.S.W with offices based in Myrtleford, Wangaratta, and Melbourne, we are sure to get you the right equipment for your project, no matter where your job is based, what size your project is, or how complex it may be. We specialize in Tier 1 projects and compliance like the Metro Tunnel Projects & Level Crossing removal projects.

Our attention to detail along with the latest plant & equipment on the market, coupled with decades of combined staff knowledge of the Hire industry and a strong focus on safety and the environment, will ensure the highest quality result for our clients.

Pacific Hire's strength lies within it's staff & their clients. We are dedicated to teamwork and delivering excellence to our clients; This has meant building and keeping trusted relationships for over 40 years.

Pacific Hire boasts a strong Tier 1 Spec equipment hire fleet, with new items added weekly, ranging from small home handyman equipment, mini loaders, excavators, compaction equipment, generators to site amenities, telehandlers, scaffold, traffic management, access equipment, from the start of your job to the end, we will have everything you require to get the job done. Our exquisite hire rental fleet provides an exceptional service, customized to suit our client's needs and specific projects, no matter what size the project is.

# TRANSPORT

On time delivery available anywhere in the south eastern states of Australia. We can deliver with great transport rates and a smile to go with it, we can get it there on time for you. With our in-house transport, we govern the rates for delivery so we can help you fit into that budget.

## Trailer Mounted Booms

A Trailer Mounted Boom is a great option for those multiple jobs. They can be towed by a normal vehicle and be used on all firm surfaces.

### SUITABLE FOR

Facilities Maintenance Shopping centres and other indoor/outdoor areas  
Manufacturing and warehouse applications. Entertainment facilities  
Electricians, Plumbers, maintenance and construction work. Trailer Mounted Booms are great for tree lopping, painting and cleaning gutters.

## Articulated Knuckle Booms from 34ft to 180ft

Knuckle Booms are specifically designed to access areas that require an up and over approach. This helps you work around obstacles or other restrictions in your path. Pacific Hire has a wide range of Knuckle Booms with platform heights from 10.6m/34ft up to 53.0m/180ft that can be manoeuvred above, horizontal, or lower than ground level.

All Pacific Hire Booms have Crush protection

## Straight Stick Booms from 40ft to 185ft

Straight booms offer you the maximum length in high-reach capabilities making them ideal for the construction or maintenance contractor. They allow you to manoeuvre above, and straight out from ground level. Pacific Hire supply a range of straight booms with platform heights ranging from 12.1m/40ft – 56.6m/185ft

All Pacific Hire Booms have Crush protection

## Vertical Lifts (Electric)

A wide range of machines to meet your every need

Working heights from 7m to 14 m

2 available versions supply-power (AC) or batteries (DC)

The Quick-Up or GR20 will follow you on every project

Easy to transport on a trailer or truck.

Only one person is needed to set up the push around option.

The light weight enables use on fragile grounds, tiles, carpeting...

Quick ups are extremely compact, they can access the tightest spaces, fit through standard doorways and can be transported in lifts

## Scissor Lift (Electric)

Quiet & versatile, ranging from 19ft to 40ft, Electric Scissor Lifts are ideal for indoor and slab work applications. Electric Scissor Lifts are used in construction, maintenance, distribution and the events industry.

### SUITABLE FOR

Facilities Maintenance Shopping centres and other indoor/outdoor areas Manufacturing and warehouse applications and stock-takes Telecommunication facilities Entertainment facilities Electricians Glaziers Plumbers All maintenance and construction work

## Scissor lift (All Terrain)

Rough terrain scissor lifts are ideal for high reach work in almost any conditions. Our of rough terrain scissor lifts are fitted with outriggers, manual and self-levelling functions which are essential when working on difficult ground conditions. These units range from 26ft to 53ft

### SUITABLE FOR:

Facilities Maintenance Shopping centres and other indoor/outdoor areas Manufacturing and warehouse applications and stock-takes Telecommunication facilities Entertainment facilities Electricians Glaziers Plumbers All maintenance and construction work Electricians Plumbers Wall panel installers All maintenance and construction work, factory fit outs Any outside work where more than 2 people are required or products are required to be lifted.

## **Athena Lift Bi levelling Scissor Lift**

Athena is a unique compact Bi Leveling Scissor Lift that can be used indoors & outdoors. This unit can work on up to a 20 degree slope front to back and a 15 degree slope side to side, making it one of the most versatile scissor lifts on the market.

---

## **Aluminium No Bolt Mobile Scaffold & Quickstage Scaffolding**

- No Bolt Scaffold is light & easy to install
- Variety of sizes available from 2m to 6m high
- We can deliver or you can collect it.
- Easy to understand instructions supplied
- Built to Australian Standards.
- Quick stage steel scaffolding built to your specification

**[www.pacifichire.com.au](http://www.pacifichire.com.au)**

### Ladder Platforms & Chariot steps

- 1500mm Standing Height
- 1800mm Standing Height
- 2400mm Standing Height

---

### Trestles and Planks

- 6'(1.8m) to 14'(4.2m) Trestles
- Aluminium Planks from 3m to 6m

---

### Extension Ladders

- 3m to 10m

### Step Ladders

- 8' (2.4m) and 12' (3.6m)

### **Jack Hammer - small/medium electric**

Hire a jack hammer to break up thin concrete or to chip away at tiles.

Ideal for shower recesses, steps, post holes for patios.

- Points, chisels, spades and asphalt cutters available.
  - Tile removers available.
  - Runs off mains power or hire a 5kva generator.
- 

### **Jack Hammer - medium electric**

Hire a Medium jack hammer to break up concrete or remove floor tiles.

Ideal for shower recesses, steps, post holes for patios.

- Points, chisels, spades and asphalt cutters available.
  - Tile removers available.
  - Runs off mains power or hire a 8kva generator.
- 

### **Jack Hammer - large electric**

Hire a large electric jack hammer for breaking up thick concrete, clay or asphalt.

- Points, chisels, spades and asphalt cutters available
- Tile removers available.
- Use mains power or 8kva generator
- Weight: 27kg

## Air Needle Guns & Air Scabblers

- Various sizes available.
- Single Head Needle Gun
- 3 headed

---

## CP9 Air Powered Concrete Drills

Ideal for small chipping jobs or repetitive drilling jobs.  
Available with

- Points & Chisels
- Masonry drill bits

---

## Small Airpick 11.5 kg - Air powered

Great for working on horizontal or smaller jobs.  
Points, chisels and clay spades available

---

## Jack Hammer 25 kg - Air powered

A heavy duty jackhammer breaker for breaking large areas of concrete. The only bigger and easier is excavator mounted.

- Heavy duty silenced jackhammer which complies with strict European vibration and noise laws
- Spades and asphalt cutters available

---

### Points & Chisels

### Hoses

### Blowpipes

### Whipchecks

## Electric 12cfm Compressor

- 12cfm belt driven
- Great for spray painting cars
- Nail guns & Braid guns
- Easy to move around on site

---

## Compressor - 130cfm – 186cfm

These units can be for powering our air powered jack hammers & drills, or using them as a back up system on your yard compressor.

- 130cfm to 186cfm
- Hose's come in 20m lengths
- Will power two of our breakers
- Long tow bar for easy backing

---

## Compressor Hire - 290cfm – 400cfm

- These units are that extra grunt needed for helping with overflow of your factory compressor.
- You can power two of our large jack hammers to break up some concrete with that extra punch.
- 290cfm to 400cfm
- Hoses come in 20m lengths
- Long tow bar for easy backing

### Vacuum Hire - wet or dry

Hire an industrial vacuum for jobs where the vacuum you use for your hallway just isn't going to be big enough. Water spills, lots of dust, this vacuum will do it all. We hire carpet dryers if that's why you want one of these...

- Use it for water or dust
- Large capacity
- Heavy duty suction

### Carpet Dryers

Hire a carpet dryer for jobs where there's been a flood and the carpet may be full of water or the concrete requires drying.

- Use it for drying wet carpet

---

### Water Blaster Hire - 1900psi electric

Water blaster to clean moss and other gunk off paving, walls and roofs, or clean your car or house windows.

In fact, any cleaning application where some pressure will make the job easier can be done when you hire a water blaster.

- 1900 psi
- 12 litres per minute
- Hose Length: 10m
- One heavy duty extension lead maximum

### Pressure Cleaners - 3000 psi – 4000 psi

- Easy start Honda motors
- Hose Reel Length: 10m
- Water output: 15 litres per minute
- Try a turbo head attachment for that pavement cleaning job, it will boost your pressure.

### Small Vibrating Plate

Small vibrating plates are perfect to hire for use for small areas of granular soil - patios, footpaths and paving. Small enough to fit in a car boot - but a two person lift for safety.

- Easy start Honda motor
- Weight: 50kg
- Travel Speed: 23m/min
- Base Plate l x w 480mm x 300mm
- Centrifugal Force: 1 tonne

### Vibrating Plate

Hire a vibrating plate for crushed rock footpaths, paving and packing sand under slabs.

- Easy start Honda Motor
- Width 460mm
- Weight 85kg
- Compaction depth - up to 300mm
- Centrifugal force - 1.98 t (19.8kn)
- Travel speed - up to 28m/min

### Rammer Hire

Hire a Tamping Rammer for back-filling trenches or holes.

- Four stroke petrol for easy starting.
- Weight - 76 kg
- Foot size - 320mm long x 260mm wide.

### DPU - Vibrating Plate- 376kg reversible

A vibrating plate designed for jobs where lots of compaction is needed in a confined area.  
Hire this vibrating plate when you need more compaction than a standard vibration plate.

#### Specifications

- Weight – 376kg
- Width – 440mm
- Centrifugal force 40kn
- Diesel, key start
- Self propelled forward and reverse

### DPU - Vibrating Plate- 480kg reversible

A vibrating plate designed for jobs where lots of compaction is needed in a confined area.  
Hire this vibrating plate when you need more compaction than a standard vibration plate.

#### Specifications

- Weight – 480kg
- Width – 550mm
- Centrifugal force 65kn
- Diesel, key start
- Self propelled forward and reverse

### DPU - Vibrating Plate- 623kg Remote Control

A remote control vibrating plate designed for jobs where lots of compaction is needed in a confined area.  
Hire this vibrating plate when you need more compaction than a standard heavy vibration plate.

#### Specifications

- Remote Control for Operator Safety
- Weight – 623kg
- Width – 600mm
- Centrifugal force 70kn
- Diesel, key start
- Self propelled forward and reverse

### DPU - Vibrating Plate- 1185kg Remote Control

A remote control vibrating plate designed for jobs where lots of compaction is needed in a confined area.  
Hire this vibrating plate when you need more compaction than a standard heavy vibration plate.

#### Specifications

- Remote Control for Operator Safety
- Weight – 1185kg
- Width – 1200mm
- Centrifugal force 130kn
- Diesel, key start
- Self propelled forward and reverse

# Remote Control Trench Roller

Small roller for all sorts of jobs where the bigger rollers will do the job but you can't get in. Long term rates our speciality on this roller

- 1.5ton
- vibration - front, rear or both
- Multiple drum widths available
- Remote Control for Operator protection & Safety
- All Pacific Hire Rollers are Tier 1 Specification for Rail & Tunnel works.

---

## Rollers Smooth Double Drum

Roller hire for all sorts of jobs where the smaller roller will do the job but you want to do it quicker. Long term rates are our speciality on these rollers.

- 1.6ton to 3.0ton
- Water to both drums
- Vibration - front, rear or both
- Drum widths - 900mm & 1200mm
- Great for Asphalt works
- All Pacific Hire Rollers are Tier 1 Specification for Rail & Tunnel works.

[www.pacifichire.com.au](http://www.pacifichire.com.au)

## Smooth Drum Rollers 1.6 ton -20 ton

What Is a Smooth Roller? Smooth drum rollers use static pressure, vibration, and impact to compact materials such as gravel, rocks, sand, and asphalt. Many road construction projects use smooth rollers, also called vibratory rollers, to create flat and smooth surfaces

---

## Padfoot Rollers 7ton -20 ton

Sheepsfoot or Padfoot Roller is a machine used in soil compaction operations. The sheep's foot roller is quite similar to its more mainstream cousin the smooth drum roller, but it has lots of little bumps or knobs that give it the memorable name. It is most suited for compaction of plastic soils such as clay or silt.

### Concrete Kibble Bucket

Designed for easy transfer of concrete on site by overhead crane  
Lightweight, yet heavy duty  
Adjustable chute allows discharge from the bottom or side of unit  
Lever operated from either side, for flexibility of use  
Fitted with fork pockets & lifting points for flexibility of use

### Electric Concrete Mixers

For mixing concrete & mortar

### Trowel Machine Hire

Quality Power trowel hire for finishing all concrete work.

- Honda Motors.
  - Trowel Blades changed every hire for guaranteed quality.
- For best results - use trowel after screeding off. If you can't walk on it, it's too soft to trowel.

### Concrete Vibrating Shaft—hand held

Hire a light weight vibrating shaft to give concrete improved strength and density by removing any trapped air.

- Unit Length: 2160mm
- Vibe head length: 430mm
- Vibe Head diameter: 45mm
- Unit Weight: 11.5kg

### Concrete Core drill

Tyrolit Core Drills are used for breaking through masonry, in installation engineering, for corner drilling on wall and wire saw jobs and for perforation drilling.

- Diamond Cutting Bits available—75mm, 82mm, 102mm and 127mm
- Stand option for comfortable and precise drilling
- Vacuum pump also available for more efficient remounting of drilling rig
- Suitable for drilling rock, concrete and masonry

### Concrete hammer Drill Electric—small or medium

Hire a Medium Electric Hammer drill or small electric Hammer drill for easy drilling of holes in masonry. Bits available from 6.5mm to 35mm in diameter.

- Suitable for drilling rock, concrete and masonry
- Bits available from 6.5mm to 35mm in diameter.

## Concrete Floor Grinders (Cub & Terrazzo)

These will smooth off slabs with rain damage. Any more grinding will remove high spots in concrete. We have stones for sale when you hire a concrete floor grinder from us.

A concrete floor grinder creates lots of dust and a vacuum may be fitted. An extraction fan is also recommended if this unit will be used indoors.

- Disposable stones provide the abrasion.
- Also available with diamond wedges & Glue removal wedges.
- Electric powered.
- Max 10 m extension lead.

## Hand-held diamond grinder/renovator

A single head hand held grinder with a 225mm diamond head. Perfect for those small jobs where larger walk behind machines just won't get to.

Concrete grinders create dust so we recommend a vacuum for safety and ease of clean up on all indoor grinding jobs, you may also require an extraction fan for indoor use.

- Fast spinning direct drive diamond head for quick grinder results.
- 225 mm diameter diamond head.
- Fit a vacuum for dust removal indoors.

## Mini Excavators 0.8ton to 1.8ton

Hire a 0.8ton or 1.8ton mini excavator for all landscaping, plumbing and demolition work where tight access excavation is required. All Tier 1 Specification.

- Supplied With 3 digging buckets
- Trailer is supplied if required
- Breaker attachment available
- Ripper attachment available.
- Post Hole Attachment available

---

## Mini Excavators 3.5ton – 5.5ton

Hire a 3.5ton or 5.5ton mini excavator for all landscaping, plumbing and demolition work. All Pacific Hire Excavators are Tier 1 Specification.

- Supplied With 3 digging buckets
- Delivery available
- Breaker attachment available
- Ripper attachment available.
- Post Hole Attachment available
- Rail & Tunnel Specification.
- Quick Hitch option available

# Excavators 8.5ton – 14ton

Hire a 8.5ton - 14ton excavator for all plumbing and demolition work. All Pacific Hire Excavators are Tier 1 Specification for rail or tunnel works.

- Supplied With 3 digging buckets
- Delivery available
- Breaker attachment available
- Ripper attachment available.
- Post Hole Attachment available
- Rail & Tunnel Specification.
- Quick hitch option available

## Excavator Attachments

Our full range of excavators have attachments to suit, from 1.2ton machines to our 14ton machines.

- Breaker attachment available
- Ripper attachment available.
- Post Hole Attachment available from 150mm – 600mm

## Kanga Kid Mini Loader

Think of it as a small dingo mini loader - which we also hire. It does a pretty good job for its size. If you don't have narrow access we'd suggest a dingo mini loader (see next page).

- 800mm wide
- 4 in 1 bucket
- Auger attachment available

---

## Kanga Mini Loader Hire

Hire a low hour dingo or kanga mini loader for reliability and versatility.

- 4 in 1 bucket - our mini loader hire includes one of these. That's one you can open and shut for easy grabbing and spreading.
- Foam filled tyres so you can't get a puncture
- Post hole digger attachment available 150mm – 600mm
- Trenching attachment available
- Ripper attachment available.

---

## Kanga Mini Loader Trencher

**Trench size:** up to 800mm deep by 150mm wide. **Does this mean I can put a 150mm (6") pipe in the trench?**

NO, 150mm pipe has an inside bore of 150mm – it will be wider. The same for agi-pipes. The trench will be 150mm wide.

**Will the trench be deep enough for an electricity cable?**

Electricity requires 500mm above the power cable – so a 600mm deep trench is best. This machine will handle a trench this deep safely.

## Mini Bobcat

Hire this mini skid steer for all spreading soil, digging and cleaning up rubbish jobs. Hire a bobcat and you'll will do it all with ease.

- 1.3ton bobcat
- 23.5 Horsepower
- 4 in 1 bucket included
- Trailer included if required
- Smudge Bar available
- Fork-set available if required

## Large Bobcat

Hire a skid steer from Pacific Hire and it'll be low hour and well maintained.

4 in 1 bucket with teeth for soil spreading, picking up rubbish and soil removal.

- High lifting capacity
- Horse-power: 65hp
- Weight: 2.6 ton
- Smudge Bar Available
- Fork-Set available

## Posi Track Bobcats

With 3 sizes available from 75hsp to 110hsp you're sure to get your job done.

- 4 in 1 bucket with teeth for soil spreading, picking up rubbish and soil removal.
- Smudge Bars & Forksets available
- Horsepower: 75-110
- Rail & Tunnel Specification

## 6ton & 10ton Site Dumper Closed Cabin

Pacific Hires site dumpers are Rail & Tunnel specked and compliant, with fully enclosed & open cabin options available. These units are designed for carrying bulk material, often on building sites.

## 6ton & 10ton Site Dumper Open Cabin

Pacific Hires site dumpers are Rail & Tunnel specked and compliant, with fully enclosed & open cabin options available. These units are designed for carrying bulk material, often on building sites.

## Extraction Fan Hire

Hire an extraction fan to remove fumes while using an excavator, bobcat, dingo or anything else with a petrol or diesel engine while inside.

The ducting moves the fumes outside. Or the fan can be used the other way - to pump fresh air into an area.

The ducting is heavy duty disposable plastic, it can come in a roll up to 100m.

---

## Man Cooler Fan Hire

Move lots of air to keep you cool if it's hot or to supply fresh air to an area where fumes from welding or engines may be used.

---

## Carpet Dryer Hire

A light weight carpet blower dryer to pump lots of air under wet carpet. Make sure the carpet doesn't flap or it will fray.

- \*Weight 15kg
- \*Diameter 300mm

---

## Space Heater Hire + Gas Bottle Hire

Hire a blower heater to heat a large area such as shed or even a marquee. As they're gas powered and pump out a lot of heat they need a supply of fresh air to stop you falling asleep - but that's no different from the gas heater in your home.

Will run on your own 9kg gas bottle — if you don't have one spare we can supply one for a reasonable cost.

### Silenced Petrol 2kva Generator

Hire a small quiet generator from Pacific Hire for all those times you need quiet portable power.

- Light Weight 21 kg
- Noise level - 52dB - about the same as the typical business office
- Max Watts - 1950
- Fuel tank - up to 6 hours.

Inverter technology makes this generator ideal for sensitive electronics - TV, computers, lights etc.

---

### Petrol 5kva Generator

- 8hp easy start Honda motor
- Wheel kit for easyish wheeling
- Max watts - 4000
- Noise Level - 74db
- Fuel Tank - 7 hours (11 litres)
- Dimensions - 711mm x 508mm x 508mm

---

### Petrol 8.5kva Generator

- 16hp easy start motor
- Wheel kit for easyish wheeling
- Fuel charged as used.
- Max watts - 7500
- Noise Level - 74db
- Fuel Tank - 5.5 hours
- Dimensions - 705mm x 530mm x 725mm

---

### Petrol 10kva Generator

- 16hp easy start motor
- Wheel kit for easyish wheeling
- Fuel charged as used.
- Max watts - 8700
- Noise Level - 74db
- Fuel Tank - 8.5 hours

## 20kva-80kva on trailer Diesel Generator

A trailer mounted generator for quiet power anywhere. A versatile diesel generator with the ability to weld.

- 15-80 kva generator 3 phase
- Volts - 240/415
- Current - 14 amps
- Noise Level - 83dB.
- Single phase & 3 phase
- Trailer mounted
- Distribution boxes and 3 phase leads available

---

## Silenced Diesel 10kva up to 500kva Generators

Super Silenced Generator Hire from Pacific Hire for use in noise sensitive situations like schools, hospitals, parties and events and residential areas.

- 10-500 kva generator
- Single phase & 3 phase
- Current - 32 amps
- Noise Level - Silenced units
- Skid set Generator
- Weight: 994kg-15000kg

---

## Generator Accessories

Pacific Hire has a wide range of generator accessories for your jobsite

## Post Hole Digger - 1 person

Hire a 1 person post hole digger with variable augers up to 350mm.

- Easy to start Honda motor
- Hydraulic power
- Cantilevered weights for easy digging

---

## Turf Cutter Hire

Hire a turf cutter to remove old lawn before laying new turf. Rotary hoe hire will help get the best results. Or lifting good turf for re-laying.

- Easy start Honda motor
- Simple one lever operation
- Cuts 300mm wide
- Self propelled for easy walk behind cutting

---

## Rotary Hoe

The best walk behind rotary hoe available for hire. Hire our hydraulic rotary hoe for all sized jobs.

- Fully hydraulic rotary hoe so there's no belts or chains to break
- 16 horsepower engine means an easy to start rotary hoe with plenty of power
- Reversible so you don't get stuck in a corner (Not too much fun when you hire a rotary hoe).

Hire our rotary hoe and a lawn roller and levelling rake (it's like a square rake with no prongs) is included so you can finish the job properly.

---

## Log Splitter

Hire the best log splitter available.

A commercial firewood log splitter featuring a hydraulic log lifter. The efficient splitting technique makes it the most productive in its class. Hydraulic log lifter will lift logs up to 200kg.

---

## Walk Behind Trencher

Hire this fully hydraulic and self propelled mini trencher to make light work of all jobs requiring the hire of a smaller trencher.

The Perfect trencher for sprinkler systems or water pipes which don't need the depth required like electricity.

This unit is called a Groundhog

- Trench size: up to 450mm deep by 90mm wide.
- Designed for softer soils only. If the ground's rock hard use the dingo trencher.

## Lawn Mower

It's a lawn mower. You hire it. You start it easily, you push it, it cuts the grass, you sit down and congratulate yourself on a job well done.

- Honda Easy Start.
- 450mm cut.
- Includes catcher

---

## Air Blower

Hire an easy start Stihl 2 stroke blower air broom which makes lots and lots of noise and blows stuff away.

---

## Brush Cutter & Whipper Snipper

We hire all sorts of garden equipment including this heavy duty brush cutter for big jobs.

- Available with blade.
- Supplied with safety visor and brush cutter cord.

---

## Hedge Trimmer

Hire a Stihl easy start long reach hedge trimmer for all those jobs where a hedge trimmer with some reach is required.

---

## Chainsaw

Hire a chainsaw for all heavy duty tree trimming and removal. And if you need a sleeper saw these will do the job too - just tell us in advance and we'll fit an old chain and give you a few extras to take care of the filings.

- New chain EVERY HIRE so they're guaranteed sharp.
- Bar length - 450mm

Safety chaps, visor and ear plugs provided.

---

## Water Filled Lawn rollers

Great for rolling out after turf & grass installation.

## Forklifts Gas/Petrol 2.5ton

Industry firsts in technology and engineering make Toyota's 8-Series forklift the most advanced forklift in the industry.

### Safety

Toyota SAS monitors key forklift operations, detecting and counteracting instability to help reduce the risk of tip-overs

\* When it senses instability, the Active Control Rear Stabiliser locks the rear axle to help reduce lateral tip-overs

If the operator is not seated at the controls the seat switch will turn "off", and the OPS system will disable the ability to lower the forks, or tilt forward or back along with all the other loading and unloading movements.

## Rough Terrain Forklift 2.5ton – 3.5ton

Industry firsts in technology and engineering make Toyota's 8-Series forklift the most advanced forklift in the industry.

### Safety

Toyota SAS monitors key forklift operations, detecting and counteracting instability to help reduce the risk of tip-overs

\* When it senses instability, the Active Control Rear Stabiliser locks the rear axle to help reduce lateral tip-overs

If the operator is not seated at the controls the seat switch will turn "off", and the OPS system will disable the ability to lower the forks, or tilt forward or back along with all the other loading and unloading movements.

## Telehandlers 2.5ton – 3.0ton

## Telehandlers 4.0 ton 17m reach

## Demolition Saw 350mm

Our New TS500i 14inch Demolition Concrete cutting saws are fuel injected, so starting and engine response is better than the older type saws. These Saws have the option of Diamond Blades or Steel cut off blades. The cutting Depth for these saws is around 110mm. Blade size is 350mm.

## Demolition Saw 406mm

Our New TS800 16" Demolition Concrete cutting saws. These Saws have the option of Diamond Blades or Steel cut off blades. The cutting Depth for these saws is around 150mm. Blade size is 406mm. This unit also has a trolley available.

## Concrete Saw - 406mm

Easy cutting of concrete kerb and channel, driveways and other jobs where the hire of a hand held concrete saw won't do.

- Diamond Blades available - extra wear chargeable
- Cuts 150mm deep

## Chainsaw

Hire a chainsaw for all heavy duty tree trimming and removal. And if you need a sleeper saw these will do the job too - just tell us in advance and we'll fit an old chain and give you a few extras to take care of the filings.

- New Stihl chain EVERY HIRE so they're guaranteed sharp.
- Bar length - 350mm

---

## Compressed Sheet Saw

The TS 55 Plunge Cut Saw has redefined the standard. Lighter weight, easier operation and precise accuracy makes your daily work quicker, easier and more enjoyable. MMC electronics provide soft start-up and constant speed under load, while the slip clutch minimises risk of kickback and wear on the blade, gear case and motor. The saw sits easily on a guide rail for perfect straight guidance and exact cuts, even on an angle. The attachable splinterguard ensures cuts are completely splinter free on both sides.

---

## Steel Cut off Drop Saw

The steel cut off saw offers great versatility by cutting a wide variety of materials including ferrous and non-ferrous metals. Powerful 2,400W motor provides more overload capacity to increase performance and durability. Patented tool-free 45° adjustable fence allows for fast and accurate angle cuts without the hassle of using a wrench. Soft start motor provides less start-up impact on gears. Extra wide solid steel base provides increased stability when cutting longer material. Quick-lock vice allows for fast clamping on different size materials to increase productivity.

---

## Tile saw

- 240v electric brick saw for wet cutting concrete or clay tiles.
- 300mm size Blade
- Easy to use with safety pedal.

## Laser levels and Dumpy Levels
